

Product Safety Recall

Traditional Professional Services Firm° TPSF° Product

Traditional Professional Services Firm° is recalling its TPSF° Product.

This recall only applies to companies that are not merry at this time of year if they are using traditional professional services firms including legal, consulting, tax and project financing.

Defect: TPSF° has received reports of professional services clients not being fully engaged with the old way of offering professional services.

Hazard: If TPSF° is retained there are risks of the professional services firm: (i) deploying junior staff to do the work; (ii) squabbling across internal silos; and (iii) not providing value for money to clients. This may lead to an unhappy Christmas.

What to do: Clients should immediately stop using TPSF° and discard their services. Clients should contact Ash St. for a replacement service that more merrily meets their business needs.

Contact details: www.ashstreet.com.au or +61 2 8651 8700.

THE NEW WAY IN PROFESSIONAL SERVICES

Ash St is a boutique professional services firm providing integrated multi-disciplinary advice on the most complex business problems using high capability talent and an agile commercial model.

**Keep safe this holiday season
and we wish all our clients a Merry Christmas
and Happy New Year 2018**
